

Configure MDS Using a Host Name

With MDS Open, Select Settings → Communications

Enter the following under Host Name:

Host Name:	<input type="text" value="timeshare.tshir"/>
User Name:	<input type="text" value="vkombo"/>
Password:	<input type="password" value="*"/>
Account:	<input type="text"/>
Operator Code:	<input type="text" value="*****"/>
Operator Password:	<input type="password"/>

- If you are a Timeshare customer, please enter Timeshare.tshinc.com in the host field; if you are a Timeshare 2 customer, please enter Timeshare2.tshinc.com as your host name.

All remaining information should stay the same.

Now select 'OK' to keep the settings and in your upper menu bar, select 'Save' to save your updated host name information.

Now you should be able to log-in successfully. If you cannot, please contact support@tshinc.com for further assistance.

Thank You
